

Feature	Value
Driving Type	Manuel
Lifting Type	Electric
Operating Voltage	220 Voltage- 380 Voltage
Capacity	1500Kg
Machine Lift Height	3500 Mm
Closed Height of the Machine	2400 Mm
Open Height of the Machine	4100 Mm
Machine Width	115 Cm
Fork Lenght	115 Cm

Fork Width	140 Mm
Forks Far Right / Far Left (Overall Dimension)	90 Cm
Machine Weight	380 Kg.
Wheels	Polyamide
Brake	Manuel

The Reels Are Made of Cast Material.

Forks Can Be Manufactured As Fixed or Mobile

Ekonomik Lift YES 1535 Semi Electric Stacker

The YES 1535 Semi Electric Stacker, with a carrying capacity of 1.5 tons and a lifting height of 3.5 meters, is an effective tool for speeding up tasks and increasing productivity. It is used for fast loading and unloading of containers, warehouses, and cargo trucks. The machine's ground lifting capacity is 3.5 meters. The semi electric stacker, developed for easy and smooth transportation of loads, also demonstrates its impact on improving occupational safety. It is considered a reliable vehicle due to its steel construction and cast wheels. The presence of adjustable forks and load arms allows the vehicle to be adapted to the specific tasks at hand, minimizing the risks associated with heavy lifting.

The hydraulic pumps powered by electric energy enable these vehicles to lift very heavy loads. The loads lifted vertically can also be transported horizontally if desired. This requires proper placement of the load and human effort.

The Ekonomik Lift YES 1535 Semi Electric Stacker has a total weight of 380 kg. With its compact design and other features, it effectively meets the needs in this field. This machine, a product of the latest generation technology, enables lifting of loads even in tight spaces.
