| Fork Lenght | 115 Cm |
| Fork Width | 140 Mm |

| | |
|---|---|
| Forks Far Right / Far Left ( Overall Dimension) | 90 Cm |
| Machine Weight | 230 Kg. |
| Wheels | Polyamide |
| Brake | Manuel |

The Reels Are Made of Cast Material.

Forks Can Be Manufactured As Fixed or Mobile

## YES0516 Semi Electric Stacker

Technology aims to make human life easier and improve our living comfort. For this purpose, many auxiliary products have been produced and made available to humanity to facilitate our daily lives. This convenience is also necessary for our work life. We need these products to perform our jobs better, more efficiently, and more profitably.

Stacker machines are specifically designed to facilitate daily work life, especially for companies involved in storage, loading, unloading, and lifting operations.

Stacker machines are classified into categories such as manual stackers, battery-operated stackers, and electric scales, according to their intended use and requirements.

Semi Electric Stacker, produced by İzmir Demir Lift with 100% domestic capital, is among the sought-after types of stacker machines in terms of price-performance ratio.

YES0516 Semi Electric Stacker is one of the products in this category, and it stands out as a price-performance focused solution with a load capacity of up to 500 kg and a lifting height of 1.6 meters.

The forks of the YES0516 Semi Electric Stacker can be manufactured as either movable or fixed. Like all our products, this model is CE certified and comes with a 2-year warranty. All spare parts can be readily supplied upon request.
