

Feature	Value
Capacity	2.5 Ton
Distance between forks	540 mm
Min. Lifting Height	85 mm
Max. Lifting Height	200 mm
Fork length	3000 mm
Number of Front Wheel	2
Number of Back Wheel	4
Size of Front Wheel	200 x 50 mm
Size of Back Wheel	80 x 70 mm

It is used for transporting tracked loads with a carrying capacity of 2.5 Ton.

CASTING PUMP IS USED IN THE PRODUCT.

2.5 Tons 3 Meters Long Manual Pallet Truck

What could you do with a pallet truck with a fork length of 3 meters? You can carry any long product with high dimensions. Moreover, when the 2.5 tons carrying capacity and the fork length feature are integrated, you have moved to a new level in terms of transportation. Thus, it is possible to manage the process much more quickly and easily. Our product development studies, which are planned since pre-production, are based on quality.
In this sense, even the smallest details are calculated. Each attribute,the dimensions of the wheels to the materials to be used, as well as the distances between the forks, is created by our engineers who are experts in their fields. In the final, high quality, robust and lifetime manual pallet trucks are presented to you.
As with all our products, we also have the CE certificate, which conforms to European Standards. With this certificate, which is the guarantee of what we have stated, we reiterate that our first priority is always to present 'successful products' to the market.
In terms of forks, our longest equipment that we have produced in series is “Economic Lift 2.5 Ton 3 Meter Long Manual Pallet Truck.” In this direction, the transport volume you will realize is also increasing. Please contact us to ask questions about our related product and to get a price quote.
