Number of Back Wheel	4
Size of Front Wheel	200 x 50 mm
Size of Back Wheel	85 x 80 mm

Piston Pin	40 mm

It is used for transporting tracked loads with a carrying capacity of 5 Ton.

CASTING PUMP IS USED IN THE PRODUCT.

FORKS ARE MANUFACTURED160 ‘’U’’ MATERIAL.

5 Ton 1.5 Meter Long Manual Pallet Truck

How important is the transportation of your stacked products to you? Of course, it is an important issue that your work continues quickly and that this process can be completed with a single personnel. While doing all of this, a manual pallet truck that carries a longer load than its counterparts both in terms of high fork length and carrying capacity will bring real functionality to your business.
In this sense, you can choose our "Economic Lift 5 Ton 1.5 Meter Long Manual Pallet Truck" equipment. While fork lengths are 115 cm in normal standards, it is in the 150 cm band in this product. Thus, it allows the transport of loads more than the standard length. In addition, it works like a real work machine with its durability level of up to 5 tons.
Our forks used in pallet trucks are produced160 U material. Therefore, you come across an equipment that does not compromise its fortitude against the toughest conditions. In addition, the casting pump on it ensures that the loading and unloading processes continue without any problems. We are aware of the importance of all these practices. So much so that all of our products, including this one, have the necessary occupational safety certificates.
You can contact us to get detailed information and a price quote about our manual pallet trucks with CE certificate.
