

Feature	Value
Driving Type	Manuel
Lifting Type	Electric
Operating Voltage	220 Voltage- 380 Voltage
Capacity	1500Kg
Machine Lift Height	3000 Mm
Closed Height of the Machine	2150 Mm
Open Height of the Machine	3600 Mm
Machine Width	115 Cm
Fork Lenght	115 Cm

Fork Width	140 Mm
Forks Far Right / Far Left (Overall Dimension)	90 Cm
Machine Weight	360 Kg.
Wheels	Polyamide
Brake	Manuel

The Reels Are Made of Cast Material.

Forks Can Be Manufactured As Fixed or Mobile

YES 1530 Semi Electric Stacker

The YES 1530 Semi Electric Stacker (1.5 Ton 3.0 M) is an economical lift that operates on electric power and serves as an industrial transportation vehicle. It has a lifting capacity of up to 1.5 tons, thanks to its electric hydraulic motors. It can lift loads to a height of 3 meters, making it suitable for tasks such as heavy load storage, container loading, and unloading.

With the combination of electric power and the hydraulic system, this semi-electric stacker can easily handle heavy loads. It allows for smooth and effortless transportation of loaded items to different locations without the need for excessive manual labor.

The compact design and smooth steering of the product provide excellent maneuverability, even in narrow spaces. The YES 1530 Semi Electric Stacker enables small turning radii, allowing for the efficient movement of heavy loads in the tightest of spaces.

This semi-electric stacker is designed with reliability and durability in mind, without causing noise pollution. It is user-friendly and ensures safe operations. Its steel construction and U-profiled uprights contribute to its reliability. Notable features of this stacker include its low failure rate, long lifespan, minimal maintenance requirements, high weight capacity, and ease of maneuverability.
